If you have any suggestions regarding improving the present curriculum and the skill set required by the industry with which you are associated, kindly mark below.

Below are the few items I would like to suggest to get the beginners knowledge of it
* Scripting Languages like nodejs(trending technology), AngularJS, ExtJS etc.
* Cloud Computing like AWS
* BI tools like PowerBI Desktop/App - Quick to learn and implement. Can be used as Analytical Reports by Higher Management
* XML and XSLT is being used in well-versed way
* Servlets, JSP and Spring Framework
* Automation Testing using Selenium(Have good future in this too)

NOTE: I'm an MCA graduate. I was forced to select the Specialization value while filling up this form since it was marked as a required field. Please ignore it for me

Thank You

We sincerely appreciate you for taking time out of your busy schedule and giving your valuable feedback.
