Global companies such as Airbus, Daimler-Chrysler, Fast Retailing, Nokia, Renault, Samsung, SAP, Technicolor, and Microsoft in Beijing, have mandated English as their official corporate language. The importance of learning English in the international marketplace cannot be understated - learning English really can change your life.

A set of symbols which represent the way a word is pronounced, and which many teachers confuse with Phonetics. The I.P.A (International Phonetic Alphabet). It is used as the standard one in every language. .The flow of words that come together during a conversation or a song in which words are connected in a special way in order to transmit our ideas or thoughts, and which poses a great deal of difficulty to foreigners that even though having a good knowledge of the language, and a good set of words in stock, are not able to understand as they expect every single word to be pronounced separately. They have dealt with linking words, homophones, content words, function words, pairing words, silent letters, minimal words etc. Finally on last day exam was practical exam was conducted and students were assessed. It was a great learning session for the students. Nearly 200 students of MBA I Year I semester have participated in the session.
